

TO: ALL REGENCY COMMUNICATIONS PROFESSIONAL SALES AND SERVICE CENTERS  
ALL REGENCY COMMUNICATIONS PROFESSIONAL SALES REPRESENTATIVES

MODEL AFFECTED: MA-357H

This mobile amplifier/charger is designed to be driven by a portable handheld transceiver such as MCPH251A, MCPH401A, MCPH601A or the multiple-channel versions of these units. Acceptable drive power to the MA-357H is limited to a maximum of 6 watts. Therefore, when using a 6-watt portable its output power must be limited to 6 watts. This can be accomplished by tuning TC13 for a maximum output power of 6 watts into a 50 ohm load. Then insert the portable into the MA-357H.
